All the fruit has to be poisoned before it starts to be fruit. Spraying. Verily, one may believe that there are more insects than there are stars in the universe—even after the astronomers' latest estimates.—Globe Democrat.

Says the Manufacturers' Record: In proportion as a man's faith and courage are strengthened his productive capacity is increased, whether he be a brain worker or a hand worker. The man who is depressed and apprehensive of the future unconsciously slows down. Have faith, be courageous, be optimistic and you will inspire your associates, your customers and your employees.

## Hog Cholera.

Hog Cholera is prevalent in many sections in Lawrence County. In some communities the losses have been large with entire herds destroyed. With a little precaution and treatment such losses are unnecessary.

An arrangement has been reached with Dr. Lucky, whereby the Deputy State Veterinarians will examine sick herds at State expense until the present epidemic is stamped out, except when the owner desires vaccination he must pay for the cost of the serum.

At the first indication of sickness in a herd any one can make use of this service by calling the County Agent or one of the Deputy State Veterinarians.

## SAME OLD STORY BUT A GOOD ONE

Mrs. Mahala Burns, Savanna, Mo., relates an experience, the like of which has happened in almost every neighborhood in this community, and has been told and related by thousands of others, as follows: "I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux (dysentery). I had another attack of the same complaint three or four years ago and a few doses of this remedy cured me. I have recommended it to dozens of people since I first used it and shall continue to do so for I know it is a quick and positive cure for bowel troubles."
